**BUILDING SAFETY CERTIFICATE**

This is certified that I have inspected the building belonging to **RADIANT PUBLIC SCHOOL**, situated at **BARAHI DISTT. JHAJJAR (HARYANA)**.

The building is constructed with superior quality material. The building is airy fit and safe for human habitation and earthquake. Safety equipment are also available. On the basis of calculations made the building is considered safe in accordance with the permissible strength and slenderness ratios as laid down in these bye-laws. There are no cracks in the building and technically fit for the school purpose. Its future life is about 30 years.

In my opinion the building of this school is fit safe for human habitation.
